

Quattro– Steps 24-28.pdf

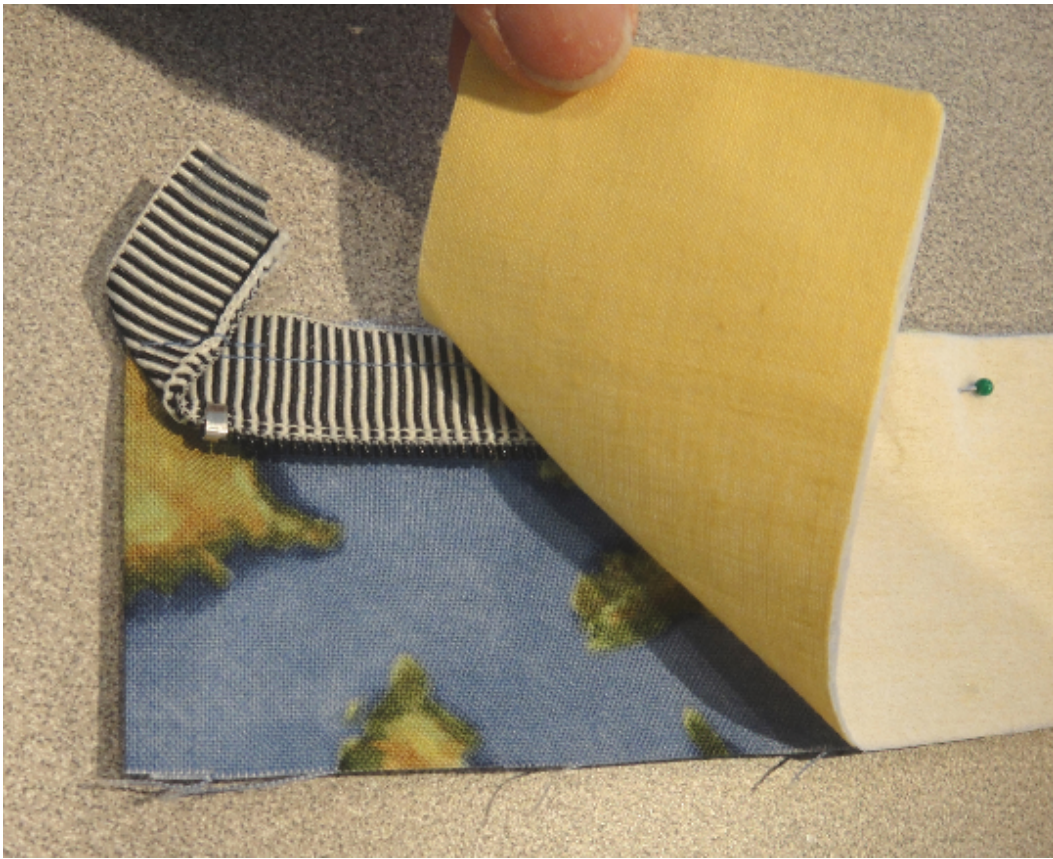

Step 24– Here you can see that we have positioned our separating zipper right side DOWN on the right side of a Zipper Panel exterior, and the top metal zipperstop is 1/4" from the folded side edge.

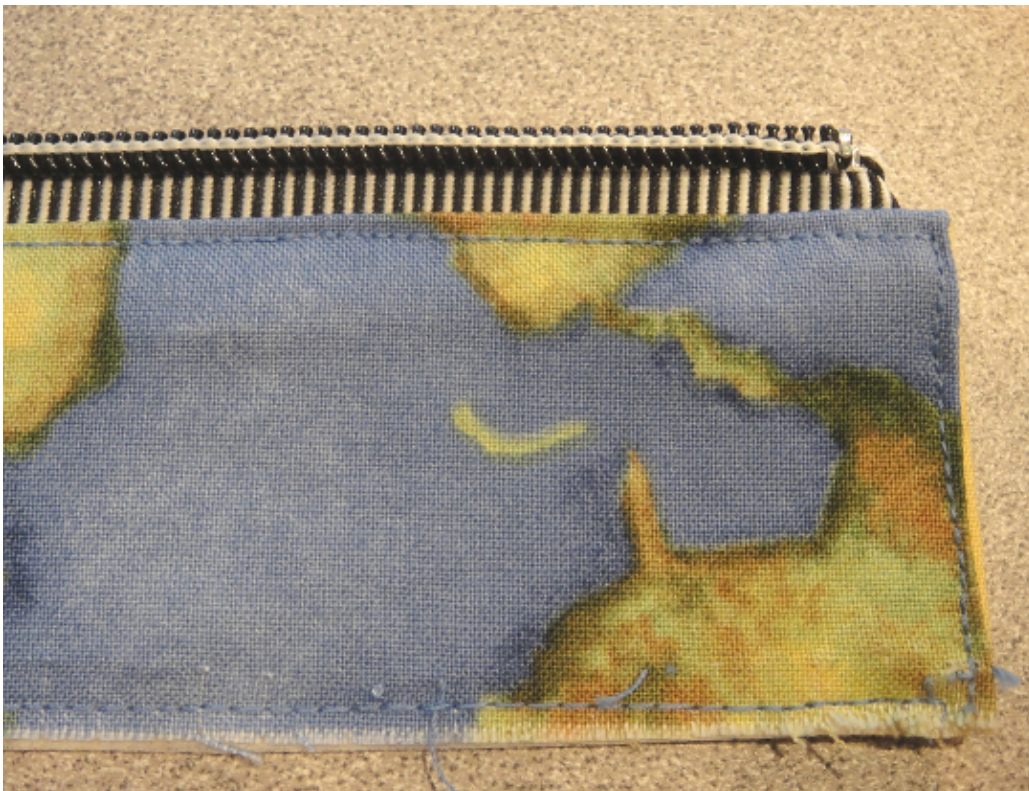

Step 25– Prior to stitching it in place, we've bent the top zipper end BACK .

Step 24-28 cont.

Step 27— Here, we've placed our Zipper Panel lining right side together with the exterior, sandwiching the separating zipper in between.

Step 28— Here's how the finished side looks— It's topstitched and the other three sides are secured together. Now all we have to do is duplicate the process to make the other Zipper Panel!
