

## **Quattro– Step 5-8.pdf**

Step 5- Here you can see the zipper right side DOWN in between the two Lower Back piece, which are right sides together.

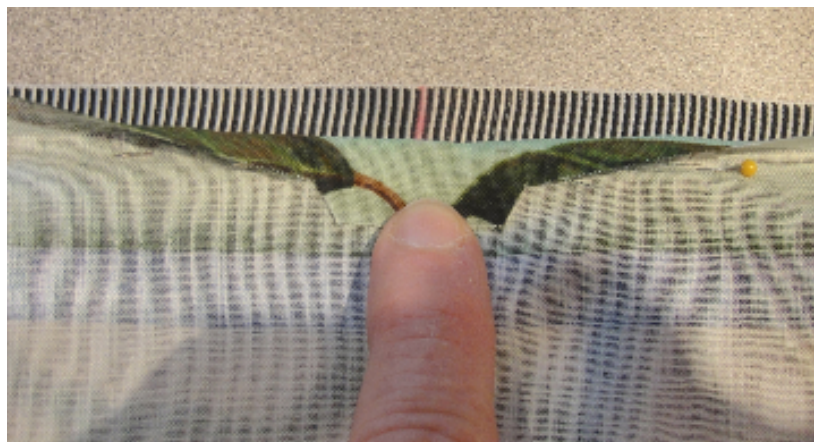

Step 6– The goal here is to make sure that the Upper Back is centered correctly over the Lower Back. For this we have to establish the Lower back center point, which is  $3 \frac{5}{8}$ " from each side edge. We can do by simply marking a spot (shown in pink) on the exposed zippertape.

**Quattro– Step 5-8 cont.**

Step 7– Here's the Upper Back, right side DOWN on Upper Back and....

Step 8– If you peek UNDER the Upper Back's triple notch, you can see how we centered it over this pink mark.

Step 9– Here's the unit placed on the right side of a 'fleece' body. Prior to stitching it in place around all 4 edges, **OPEN THE ZIPPER**, because it will never function if its stuck out there off the side edge. Now you can topstitch along the top edge of zipper as well.
