“Adding Caddy to the CC Holder” – Steps 10-17

Step 10) Cut a piece of Soft & Stable EXACTLY 8 1/4" tall X 5" wide.

Now place it on the wrong side of your CC Holder in muslin so there's 3/4" of muslin edge showing beyond the Soft & Stable edges. .

Baste it in place close to each long Soft & Stable edge.

Step 11) Peel your invisible magnetic snap apart and place one side magnetized side UP on the right side of your CC Holder in muslin.

The marked center of your snap should be 1 1/8" from the top curved edge and 3 1/4" from each long side edge.

Step 12) Now place your Outer Caddy (with the curved top edge) wrong-side DOWN on the right side of your CC Holder in muslin (sandwiching your mag snap in between the layers). Base side edges of Caddy in place.

“Adding Caddy to CC Holder” – Steps 10-17 Page 2

Step 13a) You'll need two 9" X 1 3/4" lining strips for this step. Place each strip right-sides together along the notched side edges of your Caddy. Stitch 1/4" from aligned side edges, then press each strip away from your Caddy.

Step 13b) Flip unit right-sides DOWN on table. If any of the lining strip fabric is extending beyond the muslin edges of your CC Holder, trim the excess away. Now baste edges together for next step.

Step 14) Now press CC Holder and lining strip edges over onto the Soft & Stable side. Pin in place to secure.

Step 15) After pressing over the long side edges of your CC Holder in exterior 5/8" (wrong —sides together), align the top curved edges with those of your CC Holder in muslin. Stitch 1/4" from edges, then clip curve, trim seam, flip over top edge and press flat. **DO NOT topstitch just yet.**

Step 17) After pressing over the top edges of your 2 zip-pers, insert a zipper in between each set of pressed CC Holder edges. Pin in place.

Step 17a) Here's how it should look on the lining side when the zipper is inserted and pinned in place.

Step 17b) You'll want to have about 1/4" of zipper edge extending beyond the pressed edges of your CC Holder as shown.

Step 17c) Once your happy with the placement of your zip-pers, carefully stitch close to fabric edge on both sides of CC Holder AND along top edge. (Make sure you catch the underlying lining in this stitching too!)
