

StudioKat Designs of Advance Launches "Bags with Panache" Collection of Handbags and Handbag Patterns

Kathy Southern of StudioKat Designs is an up and coming designer with a new handbag pattern line that is more a work of art, than a fashion accessory. StudioKat Designs' exclusive "Bags with Panache" line include small clutches for everyday and evening, as well as larger bags especially designed for the way today's woman REALLY lives. The "Bags with Panache" line provides sewing enthusiasts with exquisite functional designs that personify style and beauty, as well as a flair for the dramatic.

StudioKat Designs' three varieties: AproposPack, Vervalise, and BellagioBag are perfect for any occasion or special event. Ideal as a key accessory for a night out on the town, a shopping excursion to the mall, or a garden wedding, each handbag is sure to make people whisper and to get attention.

While the interior portions of each bag have been designed with the meticulous attention to the details women crave, the exteriors have been fashioned to provide a pallet for creative and individualized embellishment. Each bag is a potential work of art, as unique as the woman who carries it.

Got a great idea for handbag exterior that expresses your unique "panache," but not the talent, ability, or time to create it yourself? StudioKat works with individual clients to fashion handbags that make your statement loud and clear!

StudioKat Designs' handbags are not for the timid and shy, because people that can't wait to find out where you got your artistic creation will likely approach you! If you don't mind being the center of attention by owning a vibrant conversation piece, then these bags are for YOU! Tell the world you are unique and "one of a kind" by carrying your very own "Bag with Panache"!

StudioKat Designs mixes functionality and art with painstaking craftsmanship to furnish every client with wearable works of art or the tools to create their own stylish and unique works of art for themselves!
